# Smartlix

## Quality Animal Nutrition Feed, Mineral & Vitamin Supplements

Smartlix feed and mineral buckets are the latest innovation in livestock nutrition. Perfectly balanced with a comprehensive range of vitamins, minerals and trace elements to balance the forage-based diets of dairy, beef and sheep.

The Smartlix range of products are specially formulated to match a wide range of on-farm feeding systems and are an ideal way of reducing labour demands through 24 hour supplementation.

Produced using only the highest quality raw materials, Smartlix products offer livestock the opportunity to perform at their very best, by improving milk yield, DLWG and fertility status. The consistent intakes and weatherproofing of each product ensures that there is no waste, with livestock eating every last drop.

Speak to us today to find out how Smartlix can work for you!

### Also Available

#### Bespoke Made Buckets and Minerals

**Biosprint  
Farm Mix**

**Superfeed  
Protein Balancer**

## Hi-Energy Beef & Sheep

**Hi-Energy Beef & Sheep**  
For grazing animals, including mixed livestock

- High quality protein & energy feed tub, suitable for grazing cattle and sheep
- Good levels of vitamins, minerals and trace elements for supplementing forage shortfalls
- Protected Zinc to support a healthy immune system and encourage foot health
- Helps boost fertility and growth rates by supplementing forage-based diets

**Available in:**  
20kg and 80kg tubs

**Typical intakes**  
cattle 100 – 150g head/day  
sheep 20 – 50g head/day

## Pre Calver

To support diets in pre calving cows and heifers

- Formulated specifically to aid pre calving cattle with a full range of trace elements & vitamins
- Supports foetus development with high levels of Selenium & Vitamin E
- High Zinc level to support immune function, udder and foot health
- High Magnesium to reduce the risk of staggers during known risk periods

**Available in:**  
20kg and 80kg tubs

**Typical intakes:**  
cattle 100 – 150g head/day  
sheep 20 – 50g head/day

## Pre Topping

For productive ewes from tugging to lambing

- High phosphorus and high energy improve ovulation rates and fertility
- Improved nutritional preparation pre-tugging for ewes and rams at a time when pasture quality is declining in digestibility and dry matter
- Increase lambing percentage by reducing barren ewes and increasing the proportion of twins over singles
- Shorten the lambing spread for easier management and feeding of ewes and marketing of lambs

**Available in:**  
20kg and 80kg tubs  
**Typical intakes:**  
cattle 100 – 150g head/day  
sheep 20 – 50g head/day

## Cattle Booster

For grazing or housed cattle to supplement low energy and protein forages

- High protein, containing natural protein, to help increase protein availability to stock fed poorer quality forages
- High energy from several sources to help support optimal body condition scores, growth rates and milk production
- High levels of vitamins, minerals and trace elements for supplementing forage shortfalls
- High Protected Zinc to support a healthy immune system and encourage foot health

**Available in:**  
20kg and 80kg tubs  
**Typical intakes:**  
cattle 100 – 150g head/day  
sheep 20 – 50g head/day
